

**Polycystic
Kidney
Disease**

GIVE PKD THE BUMP

**A healthy kidney
is the size of a fist.**

**With PKD it can
swell to the size
of a rugby ball.**

**Learn more about PKD at
BumpPKD.com and join the
campaign to **#BumpPKD****

Give PKD the Bump

With PKD, kidneys can swell to four times their healthy size and weigh up to 100 times more. This can lead to a debilitating life of fatigue, long-term pain and kidney failure.

With no cure in sight any help to raise money for vital research is greatly appreciated.

Wear your pin with pride; your donation will help fund essential support and research for PKD.
